As Board Chair Rob Pierce was not physically present and used the call-in feature, Eric Lee, Chair-elect, called the meeting to order at 0935 hours. The meeting was held at the Lincoln Water System offices in Lincoln, Nebraska.

Board Members, Committee Chairs and Visitors present:
Board Chair: Rob Pierce - via call-in
Director: Tony Bilek
Chair Elect: Eric Lee
Vice Chair: David Lathrop
Secretary: Doug Woodbeck
Treasurer: Ben Day
Trustee: Milo Rust - via call-in
Trustee: Chad Roberts - via call-in
Trustee: Eric "Rick" Melcher
Trustee: Mary Poe
Past Chair: Teresa Konda - Absent
Committee Chairs: John Keith, Rich Koenig
Call-in participants: Rich Koenig, Mike Wentink, Brian Gongol, Marc Rosso
Other attendees: None

The May 4, 2012 Draft Meeting Minutes were reviewed. Mary Poe indicated a clarification was needed to the minutes regarding Drinking Water Week, specifically that the proclamation is normally provided to the Governor by the Department of Health and that it was not provided within the widow necessary to have him sign it this year. This clarification will be added to the May 4, 2012 minutes. Tony Bilek motioned to approve the minutes as amended, second by Ben Day. Unanimous approval.

Treasurers Report: See attached report from Ben Day. There has been minimal financial activity over the last few months. Approximately $1,000.00 will be realized from the Asset Management workshop, which will be put into the Pipe Workshop account. There are several Asset Management attendees that have not paid for their attendance yet. We likely won't get anything from them, but should remember their names for any future workshops. A request has been made to pre-pay for attendance at ACE for Top-Ops competitors. Discussion was had and the general consensus is that no reimbursement for expense should be provided until after the event has been attended and receipts can be submitted to show actual costs. David Lathrop will prepare a policy for the boards consideration regarding payment of expenses for members. The policy will be brought up at the retreat in August. Eric Lee motined to approve the Treasurer's Report. Tony Bilek seconded the motion. Unanimous approval.

Director’s Report: See attached. Fremont won the Best Tasting Water contest held at ACE this year. A new Standard is being developed for UV Disinfection of Drinking Water. There is only one candidate vying for the position of AWWA President. The IDA publication is being cut
because there is little if any direct benefit to the general membership of AWWA. Membership numbers are flat. We should be happy they are not declining given the economic climate. About five to six years ago, membership was at 60,000. Currently it is about 54,000. It is thought this slight decline is because of the populace getting older and possibly some changes to the Life Membership benefits. Life Members now have to pay $80 to $85 per year where previously there was no annual fee. Good topics were presented at ACE by quality speakers. Overall, ACE was a success with approximately 9,000 persons in attendance. The Nebraskqa Top Ops team placed (tied) for 13th place out of 17 teams. Several WRF award plaques have been received and the Section should think about how to utilize them. National AWWA is working on a new website and it should be up and running about December. Hopefully, it will be more user friendly. Doug Woodbeck motioned to approve the Director's Report. Rob Pierce seconded the motion. Passed with unanimous approval.

Committee Reports:

Archive & History: No report.

Audit: No report.

Awards: No report.

Budget: See attached and narrative of Treasurer's Report. A check was written to WFP for $5,369.32. David Lathrop made a motion to provide $1,000.00 each in funding for Meter Madness winners to travel to ACE next year. Meter Madness will be a new contest run during the Fall Conference this year. Tony Bilek seconded the motion. Unanimous approval. Last years Income Tax filing fee needs to be reconciled. The Section should pay for the new incoming Director's travel fees for the Winter Meeting, even though s/he will not officially take over that responsibility until ACE next year.

Cross-Connection Control: See attached.

Education: See attached. John suggested that we could use some of our funds gleaned from the Asset Management workshop to help offset speakers expenses for the Fall Conference.

Fall Conference: There will be a Joint Conference meeting on July 17, 2012 at 0930 at the offices of HDR in Omaha. The final draft agenda is due to Kathleen on the 17th. Christian New suggested that we have a noon/luncheon speaker at the conference. Normally, the visiting dignitary does this, but we could also include another speaker as the dignitary usually only speaks for 15 or 20 minutes, assuming enough time is available. It was suggested that a WFP speaker could follow the dignitary speaker during lunch. Volunteers are needed to fill Moderator spots, several persons gave their names to fill these vacancies. A few more speakers are needed to complete the agenda. NSAWWA will have two comped rooms, one for use by the visiting dignitary and one by the Fall Conference Committee Chair (Eric Lee). Refreshments will be expected in Eric's room :-) . A large Ballroom will be used for the opening session, luncheon and banquet. Rooms
are needed for the Past Chairs and Operators breakfasts. The Operators breakfast needs to be policed better to ensure only those who have paid for it get the benefit of it. In the past, many more breakfasts have been eaten than what were paid for. The hotel counts plates to determine how many were fed. We should take tickets at the door to keep an accurate account. If they don't have a ticket, they don't eat. We need to make sure the list of Board Members and Committee Chairs is accurate for bulletin printing.

**Fuller Award:** An award will be given.

**MAC:** See attached.

**Membership:** No report.

**Nominations:** See attached.

**Public Information:** This group is working on presentations for the Fall Conference. People are needed for the Water Tasting panel at the conference.

**Publications:** See attached. We need to start soliciting for advertising for our Directory and Wise Water Words. Our advertising fees may be too high. Lower fees may help get more advertisers. Mary Poe and Tom Menke will work on this effort. Brian Gongol provided narratives and suggestions for the Directory and WWW advertising campaign.

**Safety:** See attached.

**Scholarship:** No report.

**Small Systems:** This group is still working on workshop locations and agendas; to be completed by the end of the year.

**Student Activities:** No report.

**Water For People:** See attached.

**Water Utility Council:** See attached.

**Young Professionals:** See attached.

**Ad Hoc Committees:**

**Nitrate:** See attached.

**Top Ops:** No report.

**SOP's:** No report.
ACE: See comments in Director's Report.

Summer Workshop: The Summer Workshop will be held at the Holiday Inn Lakewood, 7390 W. Hampden Avenue, Lakewood, CO 80227, on July 25-27, 2012. Doug Woodbeck expressed interest in attending the workshop but no one else did. Doug was unable to attend due to work obligations.

Section Retreat: The retreat will be held on August 17, 2012 from 0930 until 1530 hours at the Lower Platte South NRD Offices located at 3125 Portia Street in Lincoln, Nebraska. We'll invite NeRWA, the Groundwater Guardians and NRD's to discuss the various related activities of each organization. Mission statement goals and objectives will be discussed to ascertain how we can all work together toward a common goal of protecting water quality and helping public water systems. David Lathrop explained that an organization called Aqua is installing moisture sensors (monitoring stations) in irrigated fields to help farmers and ag producers reduce water consumption while at the same time increasing crop yields. There are several fields in the Seward region where these systems are in use. The installation cost is about $1,500.00 per field and each station can control irrigation requirements in as small as two degree segments. The maximum size of field is approximately 130 acres. David will try to get a company representative (Aqua) to speak at the retreat. Brian Gongol will give a presentation on our revised/updated web site regarding its navigation, uses and available information. On-line registrations for workshops and the Fall Conference will be discussed at the retreat. SOP's will be discussed. Some new SOP's are needed and some existing may need to be updated. The travel reimbursement policy will be discussed. Committee titles, functions and responsibilities will be discussed and may need to be updated. Membership activities and retention will be discussed. From the Small Systems committee, ideas will be discussed on how efforts can be made to assist systems in purchasing products (buying in bulk or quantity with other systems). An example is possibly combining orders with larger systems orders (ex. ordering hydrants or meters with the City of Lincoln, etc.).

Old Business: None.

New Business: Sharon Phillips is retiring from National AWWA. Solicitations have been made to present Sharon and her husband a retirement gift from AWWA. Rick Melcher motioned to provide $25.00 to National for this effort. Eric Lee seconded the motion. Unanimous approval.

Next Meeting: The next board meeting is scheduled for September 13, 2012 at 0930 hours to be held in a location to be determined, Nebraska at .

Adjournment: Doug Woodbeck motioned to adjourn, David Lathrop second. Unanimous approval. Meeting adjourned at 1205 hours.
NE AWWA  

Treasurers Report
Account Summary:

- Checking Account    $31,536.52
- Savings Account     $4,673.31
- Pipe Workshop       $1,587.95
- Pre Conference      $3,556.95
Subtotal             $41,354.73
- CD’s Total          $65,129.97
- Total of all Accounts $106,484.70

Other:
Asset Management Workshop – Net Funds of $1,121.86, will be transferred into the Pipe Workshop Savings Account
Received one more check for booth from 2011 Fall Conference, check has been deposited and disbursements will be made to other organizations.
Received invoice from NE League of Municipalities for 2011 Backflow Training and Water Training, $1,500 and $5,000 respectively. Will cut checks to LONM.

Budget Report
Refer to budget summary.

I looked into past revenue and expenses for Wise Water Words and the Directory. I sent the information to Brian Gongol who also researched these items. From past records in 2009 it appears that advertising income was $12,575 while publication expenses were $14,077.73. If we do a good job in soliciting advertisements, the cost of these publications will not be a big burden on the Section. Once we discuss potential costs and revenues for these publications, the budget will be update accordingly.

Submitted By:

Ben Day, Treasurer

July 10, 2012

To: Nebraska Section AWWA Board

Subject: July 2012 Directors Report

Greetings everyone.

This report focuses mainly on the events and activities that took place at the AWWA-ACE in Dallas June 9-14. As most everyone should know by now, Fremont Utilities was selected as the “Best Tasting Water” in the nation. Twenty-three entries from across the country submitted water samples. Congratulations goes out to Larry and the crew in Fremont.

On Saturday the Board Special Session (BSS) was held. The BSS provides the Board updates on Association activities and allows the Board to openly discuss the action items that are voted on at the Board of Directors (BOD) meeting on Sunday. Items covered include:

- Treasurers Report
- Executive Directors Report
- Executive Session
- Closing Comments

The Sunday BOD meeting began with the President -Elect presentation. John Donahue of the Illinois Section and former AWWA Vice President is the only candidate for President-Elect this year. Typically, three or four candidates give speeches and run campaigns until the election at the Winter Board meeting. John will be a strong leader for AWWA in the upcoming years.

The consent agenda was approved that included two policy statements. The first is about Water Quality Control in the Distribution System. It frames the need for utilities to properly plan, design, operate and maintain high water quality for the point water enters the distribution system to the point where the suppliers responsibility ends. The second policy statement is about Recreational Use of Domestic Water Supply Reservoirs. This policy statement says that the source water should be protected for the benefit of the public and when recreation is allowed. The statement stresses the need for management plans when recreation is allowed and broadens the definitions of polluting activities including invasive species.

Section Bylaws and assessments were approved.

Nine Standards were submitted for approval. Eight revisions and one, UV Disinfection Systems, is new.

The IDA (International Desalination Association) Journal publishing contract term ends December 2012. Last year AWWA agreed to extend the contract with a $25,000 contribution from IDA. Despite the contribution the journal continues to be subsidized by AWWA members and doesn’t appear to provide value for the full membership. Therefore the IDA Journal program will be terminated.
AWWA’s Section Newsletter Publishing Agreement will be sunsetted effective December 31, 2012.

The 2014 Winter Board Meeting site of Sante Fe, NM. was approved.

The Treasurers Report was approved.

The full list of Consent agenda items and BOD meeting minutes are attached.

The Opening General Session on Monday began with introductions from Executive Director David LeFrance and nice commentary on teamwork. He was wearing an Emmitt Smith jersey….David reminded everyone that Emmitt would be the Tuesday luncheon speaker. Steve Roberts (ABC’s Cokie Roberts’ husband was the Opening Session keynote speaker. Steve mixed politics, news reporting and water issues in an interesting and entertaining manner.

Tuesdays highlight was the Water Tasting competition, as mentioned earlier. The Nebraska Top Ops team placed a respective 13th.

Wednesday morning I was honored to accept the 2011 Nebraska Section Fuller Award on behalf of Dennis Watts of Norfolk. Wednesday evening, Iowa Section and 2011 President, Jerry Stevens passed the presidential gavel to Charlie Anderson of the Texas Section. The president’s reception followed and I think I remember having a good time. I hope I’m wrong but there may be photos.

The “official” attendee numbers have not been released but estimates are that close to 10,000 attendees were present at the AWWA-ACE this year.

9. Approved the following specific policy directions:
   i. Partnership for Safe Water: AWWA and the Partnership complete the ongoing process to formalize the hosting agreement between AWWA and the Partnership by August, 2012.
   ii. QualServe and Benchmarking:
       1. Prioritize and focus on Benchmarking.
       2. Investigate a subscription based model for Benchmarking to be reported back as part of the
HIGHLIGHTS
BOARD OF DIRECTORS MEETING
June 10, 2012 – Dallas, Texas

ACTION ITEMS

1. Approved minutes from January 22, 2012 meeting

2. Approved the following Consent Agenda items:
   a. Approved the following Policy Statements:
      i. Water Quality Control in Distribution Systems
      ii. Recreational Use of Domestic Water Supply Reservoirs
   b. Approved the following Section Bylaws:
      i. British Columbia
      ii. Chesapeake
      iii. Missouri
      iv. New England
   c. Approved the following Section assessments:
      i. North Carolina

3. Approved the implementation of the International Inclusion Policy.
   a. Approved the following Standards:
      i. B101 Precoat Filter Media
      ii. C111/A21.11 Rubber-Gasket Joints for Ductile-Iron Pressure Pipe and Fittings
      iii. C200 Steel Water Pipe—6 In. (150 mm) and Larger
      iv. C208 Dimensions for Fabricated Steel Water Pipe Fittings
      v. C221 Fabricated Steel Mechanical Slip-Type Expansion Joints
      vi. C30 Piloted Operated Control Valves
      vii. C704 Propeller-Type Meters for Waterworks Applications
      viii. C800 Underground Service Line Valves and Fittings
      ix. F110 Ultraviolet Disinfection Systems for Drinking Water (First Edition)
   b. Approved the sunsetting of the IDA Journal Publishing Agreement, effective with the last issue of 2012.
   c. Approved the sunsetting of AWWA’s Section Newsletter Publishing Agreement effective December 31, 2012.
   d. Approved Santa Fe, New Mexico at the site of the 2015 winter meeting site.

4. Approved the revised set of AWWA bylaws, and directed the Ad Hoc Committee on Bylaws and Governing Documents Rewrite project and staff to continue developing the Board Policy Manual.

5. Approved the proposed approach to sunset the Customer Service and IMTech Conferences and to repackage the delivery of the knowledge content and other benefits for AWWA members.

6. Approved the planning of the 2012 DSS and Water Security Conferences to proceed, contingent on 2012 performances based on exceeding the 2011 key financial metrics.

7. Directed the Technical & Educational Council, the Manufacturers & Associates Council, and staff to develop a coordinate approach to the 2013 event.

8. Directed the Technical & Educational Council to return to the Board of Directors in late 2013 with a long-term approach.
Committee: Cross Connection Committee Date: March 15, 2012
Chair: Rich Koenig Vice Chair: Leroy Kramer
Total Members: 6 Active Members: 6
Executive Board Liaison: Chad Roberts
List of Active Members: Rich Koenig, Leroy Kramer, Chad Roberts, Rob Pierce, Terry Vail and Doug Meyer.
When and where has the committee met in the past year (include conference calls): March 7, 2012
Proposed changes in committee membership:
Deliverables/Activities: 4 – 1 day workshops co-sponsored with LNM and assist with the “Ultimate Backflow Challenge” – Agenda has been developed with speakers to be confirmed by July 31, 2012
Develop criteria for two awards in conjunction with the Awards Committee
“Cross Connection Control Program of the Year” - Completed
“Cross Connection specialist of the Year” - Completed
How might the Executive Board assist your Committee in accomplishing its work? Working OK
Plans/Projects for upcoming year: 4 – 1 day workshops co-sponsored with LNM and assist with the “Ultimate Backflow Challenge”
Develop criteria for the awards mentioned above - Completed
Anticipated Budget Expenditures for 2010: $1000.00 - LofNM cost share (?)
$ 770.00 – Ultimate Backflow Challenge
$ 230.00 – Misc.
Budget Request for 2012 (include a short justification) $2000.00
Help fund the “Ultimate Backflow Challenge” session and various other expenses as described above
Other Items

   December 5 Nebraska City  
   December 6 Lincoln
Doug,

July 2012 MAC Report

Exhibitor invitations, Contracts and Sponsorship forms have been posted and mailed.

Exhibitor fees have been increased from $450.00 to $525.00 per 8’x10’ booth. We are also offering larger booths (double-wide) 8’x20’ for $1000.00.

The Exhibit Hall will be in the Crystal Ballroom. Exhibitor booth layout, refreshment break stations and an area for activated within the exhibit hall have all been finalized.

FX: 402-333-9663
EM: tony@mc2h2o.com
Activities:

- I sent out a draft for the white paper or article that the Committee plans to produce, see future action listed below. Have requested assistance from volunteers to help collect data and author sections of the article.

Future Actions:

- Attend NE Wellhead Protection Network meeting.

- Evaluate the trajectory of impacts of nitrates in groundwater in Nebraska. Work with NDHHS, UNL, and others to evaluate the following:
  - Trends of nitrate concentrations
  - Impacts of nitrates—how many utilities are impacted by the 10 ppm limit on nitrates and how many would be impacted if it were reduced to 5 ppm. Attempt to summarize the costs associated with nitrates to the existing utilities impacted and the potential costs if the MCL is reduced.
  - Prepare a white paper, with input from various groups, to summarize the findings.

Submitted By:

Ben Day, Committee Chair
To NSAWWA Members and Board of Directors:

On June 18, 2012, a conference call was held by the Nebraska Section AWWA Nominating Committee (Teresa Konda, Tony Bilek and Doug Woodbeck) to determine nominees for the various seats that need to be filled for the upcoming year, 2013. The Chairperson seat will automatically be filled by the 2012 Chair-Elect, Eric Lee. The Past-Chair seat will be automatically filled by the 2012 Chair, Rob Pierce. The Nominating Committees recommended nominees for the remaining seats are as follows:

Chair-Elect: David Lathrop (11-2012 to 11-2013)
Vice Chair: Doug Woodbeck (11-2012 to 11-2013)
Treasurer: Ben Day (11-2012 to 11-2013)
Secretary: Chad Roberts (11-2012 to 11-2014)
Trustee: Eric “Rick” Melcher (11-2012 to 11-2014)
Trustee: Jim Shields (11-2012 to 11-2014)
Director: John S. Olsson (the new Director will assume this seat at ACE 2013 until ACE 2016)

Those with time remaining in their current positions are:

Trustee: Milo Rust (11-2013)
Trustee: Mary Poe (11-2013)

Election of Officers will take place at the Annual Meeting in Kearney, Nebraska at the Younes Conference Center on November 8, 2012 at 1:30 PM. During the election, nominations may be made by the members from the floor for any elected seat, excluding the Chairperson and the Past-Chair.

As per the requirements of the NSAWWA By-laws, this report is respectfully submitted for your review and consideration.

Submitted this _12th_ day of July, 2012.

Sincerely,
Doug Woodbeck
Secretary
Nebraska Section AWWA Board of Directors
PUBLICATIONS COMMITTEE REPORT
July 9, 2012
Brian Gongol, chair - brian@gongol.net

WISE WATER WORDS - 2012 ISSUES
The first edition of the year has been sent to press. I expect the National office to print and send them in the next week or two. The second edition of the year is nearly complete. Pending details about the Fall Conference, we'll finalize the issue later this month and it will probably be printed and posted in August. The help of the new committee members has been enormously valuable and has helped get this edition together very quickly. I am enormously indebted to them.

WISE WATER WORDS - 2013 AND BEYOND
We continue to pursue alternatives for publication next year due to national's decision to shut down their publication program at the end of 2012 (meaning that all issues in 2013 and beyond will need to be printed by us). I am continuing to operate under the assumption that we will still be publishing three printed issues per year. I have issued my initial recommendations for advertising prices to Ben Day, and Mary Poe has graciously volunteered to help with managing the advertising sales.

∎ If the board approves the recommended advertising structure, we can proceed with ad sales immediately.

WISE WATER WORDS - EDITORIAL CALENDAR
- Spring 2012 Wise Water Words: Currently being printed.
- Summer 2012 Wise Water Words: Most articles have been received. Details of nominations and Fall Conference information still left to include. Publication August 2012.
- Fall 2012 Wise Water Words: Articles due by October 1. Publication November 2012.
- Membership directory: Publication October/November 2012.

MEMBERSHIP DIRECTORY
Ben Day and I have discussed a number of options which I think we can pursue to cut the publication cost of the membership directory rather significantly. I will get the directory underway as soon as the second issue of "Wise Water Words" has been sent to the national office.

WEBSITE
Several new items (including a new safety committee page, an awards committee page, and a complete 2012 Fall Conference page) have been added to the website since the last report. We also have a complete documentation of this year's events (thanks to the respective organizing committee chairs) at awwaneb.org/events/2012. I am hopeful that if we continue to document all of our activities on the website, we can have a good knowledge base for future reference, as well as a useful recruitment and public information tool.

MULTIMEDIA
Our YouTube channel has been viewed 1,008 times since its inception on September 7th last year.

E-MAIL DISTRIBUTION LIST AND FACEBOOK OUTREACH
The e-mail distribution list currently has 197 members. We lost a number of subscribers due to some kind of problem with MUD's e-mail system, which I have not yet been able to solve. We sent seven updates in May and three in June. The Facebook page currently has 124 "likes" (most of whom receive our updates).
If you have anything you want to issue via the e-mail distribution list, please send it directly to awwaneb@gongol.net. That places it in the "waiting room", where I can approve it to go out to the entire list.
Advertising in the Nebraska Section Directory
The most recent edition of the section directory was 35 pages long (using letter-sized pages). Here's the breakdown of that content:

<table>
<thead>
<tr>
<th>Content</th>
<th>Number of Pages</th>
</tr>
</thead>
<tbody>
<tr>
<td>Member addresses</td>
<td>19</td>
</tr>
<tr>
<td>Members listed by employer</td>
<td>3</td>
</tr>
<tr>
<td>Bylaws</td>
<td>3</td>
</tr>
<tr>
<td>Board and committee chair info</td>
<td>2</td>
</tr>
<tr>
<td>WISA nomination form</td>
<td>2</td>
</tr>
<tr>
<td>Cover</td>
<td>1</td>
</tr>
<tr>
<td>Advertisements</td>
<td>1</td>
</tr>
<tr>
<td>State regulator info</td>
<td>1</td>
</tr>
<tr>
<td>Training grant application</td>
<td>1</td>
</tr>
<tr>
<td>Past award recipients</td>
<td>1</td>
</tr>
<tr>
<td>Mentors</td>
<td>1</td>
</tr>
</tbody>
</table>

If we choose to keep all of this content, then I think I could compress the member address listing by about 1/3rd, bringing us down to a total of about 28 letter-sized pages.

If a slightly reduced print size (something in the neighborhood of a regular telephone directory) is acceptable, then I think we can get everything published in a compact format within 32 pages.

Using black-and-white printing on standard paper, the cost would be about $6 per directory. Color printing would double the price.

These are rough estimates using a publishing outlet I've used before, and which I know to be reliable. Other sources may be available, but this at least gives us a starting figure. Distribution costs can vary dramatically. If we can distribute most of the directories at the Fall Conference, then the costs should be very minimal.

Assuming that we need to distribute about 400 to 450 directories, I recommend black-and-white publication and distribution at the Fall Conference wherever possible. My cost estimate:

<table>
<thead>
<tr>
<th>Item</th>
<th>Quantity</th>
<th>Cost each</th>
<th>Cost total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Printing</td>
<td>450</td>
<td>$6.00</td>
<td>$2,700.00</td>
</tr>
<tr>
<td>Distribution at Fall Conference</td>
<td>300</td>
<td>$0.00</td>
<td>$0.00</td>
</tr>
<tr>
<td>Distribution by mailing</td>
<td>150</td>
<td>$2.00</td>
<td>$300.00</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td></td>
<td><strong>$3,000.00</strong></td>
</tr>
</tbody>
</table>

This number could vary, but to be honest, I think I could actually reduce the cost even more with a little additional research -- possibly down to the neighborhood of $4.00 per copy.

Advertising in the last directory comprised of eight business-card-sized ads. I think the best way to sell these would be to keep the price low and simple: $100 or $150 each. The less complicated we can make the offer, the better, particularly since this is starting later in the year than would have been ideal.

If this plan is acceptable, I'll proceed immediately after finishing our second 2012 issue of "Wise Water Words", which should be finished at the end of July.
Advertising in Wise Water Words

In setting our advertising rates for Wise Water Words, we need to make a few assumptions:

**Cost:** If we continue to publish in the current full-color format, then the cost per issue per person (including printing and mailing) will be around $5.00. We presently issue 500 copies three times per year, so each edition will cost about $2,500, for a total cost of $7,500 per year.

**Revenue neutrality:** I assume that we're only trying to break even on the publication -- not make money, nor lose money.

**Size:** Local content currently accounts for enough to produce a 16-page magazine (the content inserted by National makes the current magazine a little larger, but we have no strong reason to continue carrying their material once the publishing agreement expires at the end of this year). Magazines are generally published in 4-page increments, since each sheet is generally two-sided, double-wide, and stapled through the center.

**Analysis of the current situation:**
The rates proposed in 2010 (the first year of publication by national) were $805 per full-page, $575 per half-page, and no option for a quarter-page (but $460 per third-of-a-page). I don't know if those are the current rates. Our rates in 2009 (our last year of local publication) were $700 per full-page, $500 per half-page, and $400 per quarter-page.

I think we should immediately lower the rates. The problem with advertising is that it is a highly perishable product -- once an edition has gone to print, there's no way to get it back. (In other words, you can't store extra advertising space in a warehouse. You either sell it or it disappears.)

I am suspicious that part of the problem national has been having is that they're pricing the advertising too high. If your product is advertising and your inventory isn't sold out, then your price is probably too high. In the edition going to print this week, there is one 1/2-page ad, two 1/3-page ads, and eight business-card-sized ads. I think that is dramatically undersold versus the potential.

From the perspective of a potential advertiser, I know that there are lots of different ways we can spend our marketing dollars -- exhibits, print advertising, websites, factory visits, sponsorships at industry events, giveaway items, direct mail, and on and on. I think the current pricing structure is simply too high for most of the small- and medium-sized firms in our market, compared to the many other expenses and advertising options they are offered.

Since we're only looking for something to offset the costs of our publication, rather than trying to make money off it, I think we should simply try to equalize income with expenses. If we find that we sell out, we can always raise the prices in 2014. But for the time being, I think it's pretty clear from the short list of local advertisers in the recent issues of Wise Water Words that we need to bring the prices down to encourage more local involvement. Local advertisers (like engineering firms, manufacturers' reps, and so on) are much less fickle than their national counterparts (like major manufacturers) and are more likely to become sustaining supporters who come back issue after issue.

**Recommendation:**
If the full issue is 16 pages, we could assume a split of about 50% ads to 50% content. That leaves us with 8 pages of potential advertising space.

For convenience, we can break those down into quarter-pages, half-pages, and full pages.

If we need to cover $2,500 in costs per issue, then we need to bring in at least $312.50 per full page of advertising (if there are eight pages of ads).

Since we won't necessarily sell out of advertising every time, we should probably round up. To use a very round figure, we could simply charge the following:

- $400 per full page
- $200 per half-page
- $100 per quarter-page

If we were to sell out all of the available eight pages, then we would bring in (8 x $400 =) $3200 in revenues, versus an expected $2500 in expenses. If we sell out and have more advertisers who want in than we have space in the publication, we can always print longer editions or raise rates.

But I think we would be mistaken not to sell at the lowest possible rate that allows us to cover our expenses, since we currently have very little advertising revenue coming in.
Wise Water Words Article / White Paper Concerning Nitrates in Ground Water

Proposed Article Outline:

Introduction
- Source of Nitrates – take from past WWW articles
- Impacts to health – take from past WWW articles

Impacts to public water systems
- Show trend line of nitrates in ground water – obtain from NDEQ?? DNR??

Figure 8. Median nitrate-nitrogen levels for Nebraska, 1974-2006. (Source: The Database, 2007)

- Show trend of nitrates in Public Water Supply Systems, increases in drinking water over 10 to 20 years, increases in AO’s over 10 to 20 years, etc… – obtain from NDHHS

Figure 11. Seventeen groundwater based community public water supply systems on DHHS Administrative Order for nitrate above the 10 mg/l MCL. (Source: DHHS, November 2008)
- Solutions
  o Mitigation – obtain information from NRD’s
  o Options to find new source
  o Options to treat – take from past WWW articles

- Impacts
  o Well design and construction standards – what is being done to reduce potential of contamination to ground water through wells – NDHHS???
  o Costs to treat – Capital and long term costs – list case studies, visit with NDHHS and consultants
  o Water system operations – Treatment requires increased level of operator training and licensing
  o Potential cost implications derived from case study costs projected for utilities at risk of exceeding the MCL

- Sources of financing

Conclusions

- We will continue to see a trend of rising nitrates in public water systems
- Nitrates will have a significant financial impacts on communities throughout Nebraska
- Look to utilizing BMP’s to reduce the sources of Nitrates to help reverse the trend of increasing nitrates in public water systems and thus potential financial implications
Safety Committee Report
July 9, 2012

Rob Pierce, Board Chair, Milo Rust, Safety Committee Chair, Steve Kelly, Pat Heath, Anthony L. Martinez, Roger L. Coffey, Eric Melcher, Dale Kaliff, Gerardo E. Martinez, Pete H. Neddo, Doug Pollak, Tome Menke, Committee members

• E-mailed the Safety Survey Forms to all current AWWA members we could confirm.
• Received very little responsive from the e-mails.
• Mailed hard copies of the Safety Survey Forms to all current AWWA members.
• July 31, 2012 will be the cut off date for survey to be submitted to the committee.
• Committee review will be held during the month of August.

2012 NS-AWWA Utility Safety Award - SURVEY FORM

Please check class size below:

☐ Class Size I (1-5 employees)
☐ Class Size II (6-10 employees)
☐ Class Size III (11-15 employees)
☐ Class Size IV (over 15 employees)
Submitted by __________________________________________________________
Name of Utility _____________________________________________________
Address of Utility ___________________________________________________

Chadron, NE. 69337
Nebraska Section-AWWA Safety Award
Supplemental Data Sheet

The NS-AWWA Safety Committee will use the following information to evaluate water utilities nominated for the NS-AWWA Safety Award in each of the four class sizes. The completed form should be attached to the Safety Award – CANDIDATE FORM and submitted, with all other required information, to NS-AWWA Committee chairman by July 31, 2012.

Name of Utility: __________________________________________________________

I Work Force Allocation (Estimate the number of employees or percent of work force in the following classifications)
   a) Administrative & Office ____________
   b) Construction ____________
   c) Distribution ____________
   d) Treatment ____________
   e) Other (specify) ____________

II. Safety Program (check Y or N, or write in dates)
   a) Does the utility have a formal written safety program?        Yes ____  No ___
   b) When was your safety plan developed?                                Year __________
   c) When was your safety plan last updated?                              Date __________
   d) How often is the safety plan reviewed? (Annual, Biannual etc.) ___________
   b) Were examples of program submitted?                                 Yes ____  No ___
   c) Is the utility's safety manager full-time?                                Yes ____  No ___
   d) If part-time, what other functions are included? ________________________
   e) Is there an Employee/Management Safety Committee?        Yes ____ No ___
      If yes, how often are meetings held?_______________________________
   f) Which of the following items are a part of the safety program activities (check all that apply):
      ____ Safety Posters                                ____ Tailgate/Tool Box Safety Talks

4/10/12: NSAWWA Form Revised

Doug:
Here's my report for Water for People:

I am currently attending the Water for People National Conference and am therefore absent from the meeting.

Noteworthy Items:
• We raised $5,300 from the May 4th Golf Outing--article was written and is on the website. A big thank you to participants, sponsors and Craig Reinsch (past Water for People Committee Chair). A record.
• Young Professionals has graciously offered to donate their Poker Night proceeds at the Fall conference to Water for People.
• Next event is the Sporting Clay Shotgun event scheduled for Friday, September 7, 2012 at the Oak Creek Sporting Club near Brainard. Lunch will be served.

--Christian New
The last quarter has seen some good activity within the Young Professionals group. The group has focused on putting together activities that mix learning experiences with social experiences and welcomed all age groups. Activities have been well attended and received with many new faces meeting the group.

The following is a highlight of recent activities of the group:
- March 9th: Water Storage Seminar, Omaha (15-20 attendees)
- April 13th: Assist with E-Week at UNL to support student chapter with a water tasting event
- April 20th: Tour of Flowserve facility, Hastings (15-20 attendees)
- May 8th: Children's Groundwater Festival Booth, Grand Island (4 hosting)
- June 11th-13th: AWWA ACE12 Conference, Dallas (approximately 4 YPs)

Overall, people have enjoyed the mix of events and opportunities to meet new people and learn about new subjects for them in the industry. We have more events planned for the fall that will be announced soon.

Our group is always looking for more people who might be interested in coming to events and meeting some people very involved in the industry. If anyone is interested in becoming more involved or has suggestions for events, please let us know and we will do everything we can to make it happen.
