

# WHAT I KNOW ABOUT H<sub>2</sub>O

## Toilet Talk

Flushing your toilet uses 3 to 7 gallons of H<sub>2</sub>O. A leaky toilet wastes about 50 gallons of H<sub>2</sub>O everyday.

5 minutes or less

Taking a shower uses 5 gallons of H<sub>2</sub>O a minute.

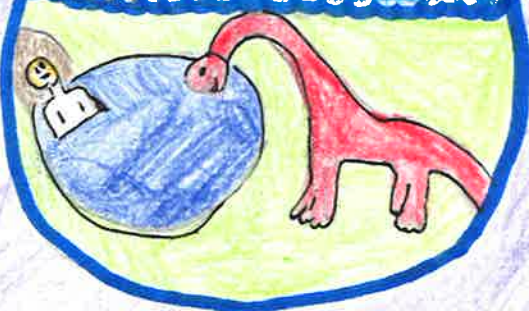

Turn It Off

Brushing your teeth for 2 minutes with the H<sub>2</sub>O running wastes 6 gallons of H<sub>2</sub>O.

## H<sub>2</sub>O That We Drink

The H<sub>2</sub>O that we drink is the same H<sub>2</sub>O that dinosaurs drank and cavemen bathed in.

## Load It Up

Automatic dishwashers use 12 to 15 gallons of H<sub>2</sub>O.

## Check

Check your faucet and toilet for leaks. If there is a leak you waste 15 gallons of H<sub>2</sub>O a day.
