

Leadership Workshop for Small Water Systems in Missouri

Leadership Through Effective Communication and Decision Making

June 3-4, 2015

Lee's Summit, MO

Missouri Department of Natural Resources

500 NE Colbern Road

Lee's Summit, MO 64086-4710

Large Conference Room

June 3 | 8:30am - 5:00pm

June 4 | 8:30am - 12:00pm

Why Attend

This workshop, conducted by expert facilitators from the Environmental Finance Center at Dominican University of California, will incorporate examples, stories, and tools that will:

- Provide the skills to understand and better manage interactions with staff, board, and/or the community;
- Introduce tools to help reduce conflict and plan for the future; and
- Improve participants' abilities to turn dry numbers into a compelling story and message.

Presenters: Sarah Diefendorf & Lauralee Barbara

Free lunch will be provided by WSU EFC.

Who Should Attend

For public works directors, water utility managers, operators, and finance staff

This workshop is designed for water systems serving 10,000 or fewer customers, though systems of any size may attend.
